

### MedjetAssist Defined

An air- medical transport membership program; as a member, if you are hospitalized more than 150 miles from your primary home address – domestically or abroad – Medjet will arrange comprehensive medical transportation to the hospital of your choice for inpatient care.

### The MedjetAssist Membership

Domestic air medical evacuation averages \$25,000 & internationally it can exceed \$100,000. Medjet membership provides an alternative for individuals and organizational entities without facing such out of pocket costs. Medjet is unique in comparison to programs found within platinum cards, travel insurance and business travel accident policies.

- Individual and family protection for business & personal travel – domestically & abroad
- Transfer to a “hospital of the members’ choice” – not the nearest appropriate facility
- Membership fee is the only cost for medical transfer services arranged by Medjet
- No dollar limit on transport costs – no deductibles, co-payments, subrogation or claim forms
- No health questions to enroll under age 75; simply first/last name, primary address and DOB
- Member Handbook for program Rules/Regulations available online & within membership packet

**Offshore Health Benefits, LTD** affiliated parties and clientele with a primary address in the U.S., Canada or Mexico can enroll with individual or family protection at [www.medjet.com/offshore](http://www.medjet.com/offshore) or by calling Medjet at 1-800-527-7478 referring to Medjet Plan, offshore.

Reduced annual rates are \$245 (Individual) and \$375 (Family) for those under age 75. View Medjet’s ZMag for an online text/image/video description of what it means to be a Medjet member – online at [MedjetforBusiness.com](http://MedjetforBusiness.com)

Enroll prior to travel. Take trips. Not chances.
